Bill, Glen

Attached please find the weekly status report for this week.

You'll notice that I've added a new section of ³High Priority
Outstanding Items² on the last page, broken down into three sections:

1. Decisions Needed
2. Assets / Deliverables Needed
3. Answers Needed

Since we're less than two weeks away from code complete before our QA
period, the above items are all high priority, however, we have put them
in priority order.

Please let us know if you have any questions.

Best,
-Jess
